

**SIGNIFICANT PERMIT REVISION NO. 46157
TO AIR QUALITY PERMIT NO. 35426
PHOENIX CEMENT COMPANY**

SIGNIFICANT PERMIT REVISION DESCRIPTION

This Significant Permit Revision to Operating Permit No.35426 authorizes the Phoenix Cement Company to increase the usage of explosives for blasting operations at the quarry.

This significant revision will result in the following changes to Attachment “B” of the Permit No. 35426:

ATTACHMENT “B”

Condition II.B.3.a of Permit No. 35426 is revised and shall read as:

II.B.3 Operation Limitations

- a. The Permittee shall not discharge quarry explosives in excess of following:
[A.A.C. R18-2-306.01 and -331.A.3.a]
[Material permit condition is indicated by italics and underline]
- (1) 1473 per year in rolling 12-month total;
- (2) 113 tons per calendar day; and
- (3) 15 tons per hour.

Condition II.E.4 of Permit No. 35426 is revised and shall read as:

II.E Compliance Determination

4. The Permittee shall maintain a record of explosives discharged each hour. At the end of each calendar day, the Permittee shall calculate and record the quarry explosives usage for that day.
